Experience

Lead Organizer — PoC Dec 2025 – Mar 2026
Campfire Hong Kong, Hack Club – Organizer Team *Hong Kong SAR*

- Co-organized a 2-day on-site hackathon for 60+ students in Hong Kong with 3 core organizers
- Worked on everything like logistics, designing, event operations, financial planning, etc
- Secured HK$25,000+ with 15 sponsors like The Well, Nex Inc, Jane Street, GoGoX, Kepler Interactive
- Ensured all participants walked away with a game they made with their friends, some prizes, and a big smile
- A game jam system with a digital quest system, stock market, prize shop, and auction

IT Intern *(Reference available upon request)* Jul 2025 – Aug 2025
Chong Lap (H.K.) Co. Ltd. – IT Team *Hong Kong SAR*

- Coordinated with the IT team on pre-production application of the ERP system (Microsoft Business Central)
- Automated key business workflows using Power Automate and Azure Cloud to boost employee efficiency
- Diagnosed the ERP's limitations and implemented effective workarounds from scratch
- Migrated and cleaned core company data with Python and Excel
- Demonstrated positive working attitude by being dedicated, reliable, and organized

Projects

Hadrian.CC | See source code Apr 2026 – Present
A static website for displaying my online resume

- Built all web components using Astro, HTML, and TailwindCSS following industry design standards
- Highly optimized using Astro methods and industry standards. Deployed on Cloudflare
- Technology stack: Astro, HTML, TailwindCSS, JavaScript, Cloudflare

Umpire | See source code Mar 2025 – Jun 2025
A multithreaded TUI for speeding up competitive programming workflows locally

- Multithreaded using C++17 STL to parallelize test-case judging with TLE and RTE handling
- Uses FTXUI TUI with multiple runtime options using argparse to enhance UX
- Integrated Nix with CMake to enable cross-platform compatibility for Nix and GitHub Actions CI

Activities

- **Distinction** — Canadian Computing Contest (Senior Div)
- **Silver** — Hong Kong Secondary School Coding Contest
- **Top 15%** — LeetCode Weekly Contest 471
- **Distinction** — Canadian Senior Mathematics Contest

Technical Skills

Languages	C++, Go, Python, HTML, CSS, Nix, Rust, JavaScript
Frameworks	Astro, TailwindCSS, Nix(OS) ecosystem, Go ecosystem, React
Tools	Git, Linux, Goreleaser, Cloudflare, DigitalOcean, Podman, CMake, GitHub Actions, Supabase
